

HAVIS New Touch Screen Display

Havis Dash Mounted Touch Screen Display

- **Maximizes in-vehicle cabin area for driver and passenger**, as it is mounted to dash and computing device and docking station are mounted in trunk.
- **Innovative and versatile functionality** built into the design such as an integrated USB port allowing easy access for software updates to main device.
- **Capacitive technology** allows Multi-Touch 2 Finger for pinch, zoom, activate.
- **Night mode** of red monochrome for reduced eye strain, easy toggle back and forth.
- **Optimized audio experience** with two 2.0W integrated stereo speakers allowing for sound directly from computing device.
- **Volume and brightness** adjustments to be made right on the actual display
- **Power button** allows screen to be blacked out for privacy without having to go through a reboot process, and to minimize driver distraction.
- **Specifically designed** to attach to optional C-DMM-2000 series Dash Monitor Mounts, allowing for Rapid ergonomic articulation adjustments by the driver or passenger allowing for a full range of motion to maintain good posture, minimize strain, and reducing glare.
- **Havis Touch Screen display** can also be attached to any mount with VESA 75 hole pattern.
